

2nd International Conference On Sustainable Urban Design And Livable Cities

In line with UTM vision of
“**Being Center for Academic Excellence and World Class Technology Through Creativity**”, this 2nd

international conference aims to be an international platform for sharing the latest ideas and technology between industry and universities. This conference hopes to improve an understanding and research in the field of sustainable urban design and livable cities as well as from other related themes. Hence, this conference will establish the superiority of UTM as a university that pioneered the field related to urban design and urban planning, sustainability and architecture in Malaysia.

With the line of invited distinguished keynote speakers, and paper presenters, the conference will become the platform to gather experts, researchers, academicians, and students in various fields involving sustainable urban design, architecture and urban planning as well as other areas in the built environment.

Authors are invited to submit full papers describing their original research. Areas covered by the conference includes but not limited to:

Sustainable Urban Design, Planning and Development
Safe and Livable Cities
Sustainable Urban Landscape
Disaster Risk Reduction Cities / Cities and Climate Change
Resilient and Healthy Cities
Sustainable Architecture and Design
Asset and Facilities Management

*All accepted full papers will be published in conference proceedings with isbn. Additional charges will be applied for journal publication in Planning Malaysia (special series) (indexed in SCOPUS)

10 October 2017
Renaissance Hotel,
Jalan Sultan Ismail,
Kuala Lumpur
MALAYSIA
