- Master Project 1
- Master Project 2

"Well rounded .."

“The program was well rounded, including both management aspects and technical aspect. It instilled in me the drive to always learn and evolve, which is very beneficial in my current technical team lead role. Overall the facilities, general administration including class and exam scheduling was good for a weekend students like me. Lecturers were excellent, they focused on imparting knowledge.”

REBECCA SANTHANASAMY

Solution Development Architect
T-Systems Malaysia

"Holistic understanding .."

“The research skills and study skills that I gain was beneficial in my teaching profession and delivered the best IT knowledge, technical and various software skills to my students. All lecturers are very good as they are go beyond helping help the student in researching the new topic and provide relevant advice. This gave me a holistic understanding of the IT environment that' is essential for a world that is now shifted to 4.0 IR.”
